

## Tempotest

Parà SpA introduces Bel Mondo, a new collection of its outdoor/indoor performance fabric, Tempotest. Italian for beautiful world, Bel Mondo is a collaboration from noted outdoor-fabric designers Karen Williams and Brenda Sewell-Bost of the design company D2 and Filippo Uecher, creator of the Maria Flora line of performance fabrics. The collection, woven in Biella, Italy, has elements of Italian flair with a U.S. eye toward color. In this mix, stylish graphics and colorful, multilayered patterns coupled with bold, vibrant textures are featured in a color palette inspired by the beauty found in nature's simple elements: sun-drenched hues, lush grasslands, cool waters, and rich earth tones provide perfect combinations of color—with no boundaries.
